

**CURRICULUM VITAE**  
**Virginia T. Gallagher, Ph.D.**  
**Neuropsychologist**

**I. PERSONAL DATA**

Current Address: University of Virginia  
Department of Neurology  
Box 800394  
University of Virginia  
Charlottesville, VA 22908

Phone: 434-760-6599  
E-Mail: [vgallagher@virginia.edu](mailto:vgallagher@virginia.edu)

**II. EDUCATION**

Ph.D. Clinical Psychology	Northwestern University	2015 - 2021
M.S. Clinical Psychology	Northwestern University	2015 - 2017
B.A. Government	University of Virginia	2008 - 2012

**III. POST-GRADUATE EDUCATION**

Clinical Neuropsychology Fellowship	University of Virginia	2021-2023
Virginia Alzheimer's Disease Center Scholar	University of Virginia	2022-2023

**IV. ACADEMIC APPOINTMENTS**

Assistant Professor	University of Virginia, Department of Neurology	2023-Present
---------------------	---	--------------

**V. CERTIFICATION AND LICENSURE**

**A. Clinical Psychology Licensure**

Virginia	2022-Present	Permanent	0810007632
----------	--------------	-----------	------------

**VI. HONORS AND AWARDS**

Senior author and primary mentor to Best Poster Awardee: Ashleigh Patterson, 4 <sup>th</sup> year undergraduate student	3rd European Congress of Neurology and Neuropsychiatry	2025
Primary mentor to Jefferson Scholar Travel Grant Awardee: Ashleigh Patterson, 4 <sup>th</sup> year undergraduate student	University of Virginia Jefferson Scholars Grants Program	2025
Primary mentor to Ingrassia Research Awardee: Simona Hagos, 4 <sup>th</sup> year undergraduate student	University of Virginia Echols Scholars Grants Program	2025

Invited Scholar	integrated Translational Research Institute of Virginia 2024 (iTHRIV) Scholar Program	2024
Dissertation Award	Sports Neuropsychology Society	2021
Walter F. Burke Award for Clinical Excellence	Northwestern University	2021
Graduate Research Fellowship Program Honorable Mention	National Science Foundation	2017

## I. RESEARCH ACTIVITIES

### A. Areas of Research Interest

**Interventions for Dementia Caregivers – Design and Testing:** Dementia caregivers are at high risk for poor mental health and physical health outcomes due to caregiving burden. Further, dementia caregivers may become caregivers unexpectedly and/or with little training or knowledge about managing the biopsychosocial aspects of cognitive decline disorders. I am committed to designing, testing, and disseminating needed, feasible, effective, and scalable evidenced based interventions for dementia caregivers. I have several ongoing lines of research to develop digital interventions for dementia caregivers.

**The Impacts of Caregiver Age and Socioeconomic Factors on Caregiver Health, Well-being, and Needs:** I investigate the impacts of caregiver age, generation, and social determinants of health on caregiver distress, physical health, and unmet needs. Thus far, we have demonstrated that there are generational differences in caregivers' use of digital health technology and caregivers' mental health distress. We also have upcoming presentations and papers in progress demonstrating the negative impacts of neighborhood disadvantage and time scarcity on caregivers' mental health. Understanding the effects of these factors will help inform the design and tailoring of future, targeted interventions.

**Characterization of Sleep Problems Among Dementia Caregivers:** As a postdoctoral and early faculty researcher at UVA, I investigated sleep disturbances among patients with dementia and their caregivers. There was conflicting literature regarding whether sleep disturbances, particularly insomnia, are a cause or a consequence of neurodegenerative processes among patients with Mild Cognitive Impairment (MCI) and dementia. Our 2023 International Journal of Geriatric Psychiatry paper demonstrated that the presence of insomnia symptoms increased the risk of converting from "cognitively normal" status to MCI at 4-year follow-up but did not increase the risk of converting from MCI to dementia, providing possible supporting evidence that insomnia may be a prodromal symptom or a risk factor of initial cognitive decline. Additionally, the extent to which reductions in sleep quality and duration among dementia caregivers are due to psychological distress versus patients' nighttime behaviors was not clear. In several papers, I have demonstrated as a first- and co-author that psychological status is a more robust predictor of dementia caregivers sleep problems than dementia patients' sleep disturbances, neuropsychiatric symptoms, or dementia severity.

## II. TEACHING ACTIVITIES

### A. Clinical Teaching

Outpatient Neuropsychology	Postdoctoral Neuropsychology Fellows	2023-Present
----------------------------	--------------------------------------	--------------

### III. OTHER PROFESSIONAL ACTIVITIES (BOARDS, EDITORSHIPS, ETC.)

#### A. Invited Manuscript Peer Reviews Completed

Journal of the American Medical Directors Association	2025
Brain and Behavior	2025
American Journal of Preventative Medicine	2025
Frontiers in Public Health	2025
The Gerontologist	2025
Journal of Clinical Psychology	2025
BMJ Open	2025
Journal of the American Medical Directors Association	2024
Journal of Applied Gerontology	2024
Journal of Geriatric Psychiatry and Neurology	2024
OBM Geriatrics	2024
Journal of the American Medical Directors Association	2023
Applied Neuropsychology: Adult	2022

#### B. Trainings and Workshops Attended/Completed

Designing a Mixed Methods Study: University of Michigan Workshop	2025
Training in Implementation: Actionable Research Approaches (TIARA)	2025
Center for Advancement and Dissemination of Intervention Optimization, Multiphase Optimization Training	2025
Secondary Data Analysis Training Workshop at the Biennial Conference on Family Caregiving Research	2024
Mentorship Training: Center for the Improvement of Mentored Experiences in Research (delivered via iTHRIV)	2024

### IV. CLINICAL ACTIVITIES

#### A. Outpatient

Conduct neuropsychology outpatient evaluations and provide follow-up dementia care in the multi-disciplinary Memory and Aging Care Clinic.

### V. FINANCIAL RESOURCES (GRANTS AND CONTRACTS)

#### A. Internal

##### i. Current

iTHRIV Scholars Mentored Career Development Program	2024-2026
---	-----------

Virginia T. Gallagher, 2025

*Title:* Characterization of Millennial caregivers of persons with cognitive decline: identifying intervention targets using a mixed-methods approach.  
*Role:* Mentored Principal Investigator (PI)  
*Total costs:* \$284,121

UVA Brain Institute 2024-2026

*Title:* Relationships Among APOE-4 status, Physical Activity, and Stress on Sleep Quality Among Persons with Dementia and Caregiver Dyads  
*Role:* Co-I  
*Total costs:* Unknown.

UVA School of Data Science 2025-2026

*Title:* Developing A Chatbot to Support Family Dementia Caregivers  
*Role:* Co-PI (with Nur Yildirim, PhD)  
*Total costs:* \$19,500

### ***ii. Pending***

NIA Mentored Career Development Award (K23)

2026-2031

*Title:* Development and Pilot of PIVUT (Podcast InterVention for dementia caregivers Under Time pressure).

*Role:* Mentored PI

*Total costs:* \$936,202.00

NIA Research on Current Topics in Alzheimer's Disease and Its Related Dementias (R21 Clinical Trial Optional)

2026-2028

*Title:* Development and Pilot of PIVUT (Podcast InterVention for dementia caregivers Under Time pressure).

*Role:* Co-I PI

*Total costs:* \$275,000.00

### ***iii. Completed***

UVA Brain Institute, Human Neuroscience Grant

2023-2025

*Title:* The role of environmental social determinants of health in care partners of persons with cognitive decline.

*Role:* PI

*Total costs:* \$90,000

NIH-National Institute of Neurological Disorders and Stroke (F31 NS1068409)

2018-2021

*Title:* The Use of Eye Movement Testing to Detect Neurocognitive Change Associated with Subconcussive Impacts

*Role:* Mentored PI

*Total costs:* \$79,194

## **VI. PHYSICAL FACILITIES**

***None.***

## VII. PERSONNEL CURRENTLY SUPERVISED

Chris Sheehan

Simona Hagos

## VIII. MASTER'S AND PH.D. THESES DIRECTED, STUDENTS AND TRAINEES SUPERVISED

Mentee Name	Years Mentored	My Role	Current Position
Simona Hagos	2024-Present	Independent Study Supervisor and Research Assistant Supervisor	4 <sup>th</sup> Year Undergraduate Student
Ashleigh Patterson, BS	2021-2025	Independent Study Supervisor and Research Assistant Supervisor	Life Science Strategy Analyst, Triangle Insights Group
Zachary Greth, PsyD	2024-Present	Fellowship Research Mentor	Neuropsychology Fellow
Melanie Ventura, PsyD	2024-Present	Fellowship Research Mentor	Neuropsychology Fellow
Ryan Thompson, PsyD	2023-2025	Fellowship Research Mentor	Assistant Professor, Virginia Commonwealth University
Savana Naini, PhD	2023-2025	Fellowship Research Mentor	Assistant Professor, University of Minnesota
Antonio Tlatenchi, PhD	2023-2025	Fellowship Research Mentor	Neuropsychologist, Private Practice
Prianka Murthy	2017-2020	Graduate Student Advisor	Clinical Psychology PhD Candidate, University of Connecticut

## IX. PAPERS PUBLISHED OR IN PRESS

Underlined authors reflect trainees or students mentored by Dr. Gallagher
